

Ludwig Boltzmann Cluster
Translational Oncology

REPORT 2007-2009

Index

1.	Mission statement	1
2.	Scientific and technological objectives of the cluster projects and state of art	1
2.1.	Project 1 (P1): Establishment of a tumor bank	2
2.2.	Project 2 (P2): Clinical Projects	2
2.2.1.	Clinical Study Activities	2
2.2.2.	Investigations on Epidemiology/Cancer (Chemo-) Prevention	4
2.2.2.1.	Investigations in the Field of Epidemiology	4
2.2.2.2.	Investigation in the Field of Cancer (Chemo-)Prevention	5
2.3.	Project 3 (P3): Analysis of MRD using molecular-orientated methods	5
2.3.1.	Investigations on Stem Cells/Minimal Residual Disease (MRD)/ Circulating Tumor Cells (CTC)	5
2.3.2.	Background for Investigations on CTC in solid malignancies	6
2.3.3.	Detailed Objectives of the Investigations on CTC	8
2.4.	Project 4 (P4): Molecular-orientated early diagnosis of colorectal, lung and prostate cancer	10
2.5.	Project 5 (P5): Characterization of repopulating tumor cell in recurrent tumors	10
3.	Interaction of the projects	11
3.1.	Interaction of the projects with each other	11
4.	Structure of the Cluster Translational Oncology	12
4.1.	Finances	12
4.2.	Application of the budget	12
4.3.	Acting persons and employment relationship	16
5.	Scientific results	18
5.1.	P1: Establishment of the tumor bank	18
5.2.	P2: Clinical projects	18
5.2.1.	Clinical Study Activities	18
5.2.2.	Clinical Study Results	20
5.2.3.	Investigations on Epidemiology/Cancer (Chemo-)Prevention	20
5.2.3.1.	Results in the Field of Epidemiology	20
5.2.3.2.	Cancer (Chemo-)Preventive Trial	21
5.2.3.3.	Publications Clinical Projects	22
5.3.	P3: Analysis of MRD using molecular-orientated methods	22
5.4.	P4: Molecular-orientated early diagnosis of colorectal, lung and prostate cancer	27
5.5.	P5: Characterization of repopulating tumor cell in recurrent tumors	28
6.	Education and training / Personal Advancement	32
7.	Cooperation in the cluster and with others	33
8.	Problems/Changes/New Opportunities	35
